Welcome to the Plan Formu
Workshop

Welcome to the Plan Formulation Workshop

Why are we here?

- Increase expertise in plan formulation
- Missions are changing and planning is more complex and multipurpose
- Take earlier steps towards becoming a full performance planner
- Move towards a learning organization
- Formulation is a team process

Relationship to other core planning

- Introduction to Planning
- Planner Orientation Workshop
- Planning Process
- Plan Formulation Workshop
- Environmental Considerations in Planning
- Economic Evaluations in Planning
- H&H Considerations in Planning
- Public Involvement and Teaming in Planning

Plan Formulation Workshop Outline

- General Plan Formulation
- Environmental Compliance
- Ecosystem Restoration
- Flood Damage Reduction
- Navigation (Inland or Harbors)
- Multipurpose (With exercise/case study throughout the workshop)
- Regional Issues

In this beginning session we v

- Student questionnaire and administrative announcements
- Get to know each other
- Discuss plan formulation principles in three modules:
  - What is plan formulation?
  - Key concepts and terminology,
  - How to identify measures and build them into plans
- Later in the course, we will apply these principles to ecosystem restoration, flood damage reduction, navigation, and then to multipurpose planning

So let’s get started ….
